Today marks the end of remote learning and home schooling, hopefully for good if we all adhere to the government guidelines! We look forward to welcoming all our families back on Monday, but first lets have a look at another week of wonderful home learning. Reception have been busy completing lots of activities related to the story of 'The Very Hungry Caterpillar'. In Maths the children have been learning all about the days of the week and created some wonderful symmetrical butterflies. They enjoyed a special World Book Day themed live session on Thursday with Miss Douglas, during which they brought along their favourite books and had a fun story themed quiz. Year 1 has had a lot of fun talking to older members of their family about toys that those family members played with when they were children. Many of them recorded videos of themselves interviewing the person live or reading a selection of facts that they had put together. All children took great interest in the different materials that toys were made out of and how they were played with. In English they went on a lion hunt (inspired by Michael Rosen's Bear Hunt) and in maths they have started to learn how to compare and measure length and height. Year 2 have been listening to different versions of the story of St George and the dragon. They have sequenced stories and compared the different versions. In Maths they have been learning about 2D shapes including lines of symmetry. They have enjoyed some fun live sessions this week, including a scavenger hunt and show and tell. All staff have been in school today, getting the place ready for Monday. Exciting! Have a great weekend!

For amazing improvement in handwriting:
